DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 13 September 2023 at 06:13 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution expected across much of the UK today as cooler and fresher conditions become established. Isolated pockets of moderate air pollution remain possible across the far southeast.

Tomorrow: Levels of air pollution are forecast to remain Low across the UK.

Outlook: Air pollution levels are expected to remain Low across much of the UK through the period. However, over the weekend, Continental influence may see isolated pockets of Moderate air pollution develop across parts of south and southeast England.
